This month we've been focusing on historia in our yearbook. It's been a great opportunity to explore the rich tapestry of events that have shaped our world, from ancient empires to modern democracies. We've delved into the politics, society, and culture of different eras, uncovering the complexities and contradictions that define our collective history.

In this issue, we've focused on the impact of the Industrial Revolution on British society. The rapid pace of technological advancement and economic growth transformed the lives of workers across the country. The growth of factories and the expansion of the urban population brought about significant changes in the way people lived and worked.

As we move forward, we'll continue to explore the themes of democracy, globalization, and human rights. These are issues that are as relevant today as they were when they were first articulated. We hope that our coverage will continue to inform and inspire our readers.

Thank you for your support and we look forward to your continued feedback.
life. To his anguish, he repeatedly found himself unable to perform sexually. And, regardless of strenuous workouts, his body struggled to build muscle, earning him the nickname "Pear" from his macho teammates. Physically, matters turned bizarre when he discovered that he was lactating. The testosterone-driven culture in which Ken grew up made it agonizingly difficult for him to seek help. But, in time, he discovered something that lifted years of pain, frustration and confusion: a brain tumor was causing his body to be flooded with massive amounts of a female hormone, which was disabling his masculinity. Five hours of surgery accomplished what years of therapy, medication and denial could not and allowed Ken Baker to finally feel and function like a man.

The Late Bloomer - Ken Baker - 2016

On the surface, Ken Baker seemed a model man. He was a nationally ranked hockey goalie, a Hollywood actor with two agent clients, and a great party and girls came on to him. Inside, though, he didn’t feel like the man he was supposed to be. Although attracted to women, Ken had little sex drive and, thus, even less of a sex life. To his anguish, he repeatedly found himself unable to perform sexually. And, regardless of strenuous workouts, his body struggled to build muscle, earning him the nickname "Pear" from his macho teammates. Physically, matters turned bizarre when he discovered that he was lactating. The testosterone-driven culture in which Ken grew up made it agonizingly difficult for him to seek help. But, in time, he discovered something that lifted years of pain, frustration and confusion: a brain tumor was causing his body to be flooded with massive amounts of a female hormone, which was disabling his masculinity. Five hours of surgery accomplished what years of therapy, medication and denial could not and allowed Ken Baker to finally feel and function like a man.

El Corde Lucanor - Juan Manuel (Infante de Castilla, -1987) This is one of the major works of prose fiction produced in medieval Castile, and the greatest literary work written in the language of Juan Manuel. Here, the author presents a medley of stories and history being both the grandson of Castilian monarchs, and a distinguished soldier and politician.
