When people go to the books store, they may be overwhelmed by the large number of books available, so they are not always ready to go to the bookstore again. They may not even know that a book is available if they do not see it in the bookstore. We need to have the title of the book, the author's name, the publisher, and the ISBN number. The title of the book is often the first thing a person will look at when they go to the bookstore, and it is the most important part of a book's title. The author's name is also important because it tells us who wrote the book. The publisher tells us where the book was published, and the ISBN number is a unique number that identifies a specific book. We need to have the title of the book, the author's name, the publisher, and the ISBN number.
