The recipes are organized by ingredient, making it easy to find something to suit your taste and dietary preferences. Whether you’re a seasoned home cook or a beginner, Thursday is the New Friday is sure to inspire you with its fresh, creative, and delicious dishes.

Slow Cities

Slow Cities is a book that explores the value of slowing down in the city. In this book, author Edward Yu argues that cities can become more sensible—more sense-able—through the playful and systematic exploration of movement. By slowing down in the city, Yu shows how we can become more aware of our bodies, our surroundings, and our relationships. This book is perfect for anyone who wants to change their perspective on city life and learn how to appreciate the beauty and complexity of the urban landscape.

Kale & Caramel

Kale & Caramel is a sumptuously photographed and beautifully written cookbook that presents eighty recipes for delicious vegan and vegetarian dishes featuring herbs and flowers, as well as luxurious do-it-yourself dessert bars. Born out of the popular blog Kale & Caramel, this book is perfect for anyone who wants to discover the joy of cooking with fresh, seasonal ingredients and create a healthy, delicious, and beautiful table. Whether you’re a vegan, vegetarian, or just looking to incorporate more plant-based meals into your diet, Kale & Caramel is sure to inspire you with its innovative and delicious recipes.

 acceleration and deceleration

How do you change the speed of a moving object? This interesting book explains how forces, such as friction, and the mass of an object, can change the speed of an object in motion. Simple activities help children understand such concepts as "force," "mass," "acceleration," and "deceleration," as well as how ideas from the science of motion can be applied to everyday life and physical phenomena in different cultures.

Seven Percent Slower - A Simple Trick For Moving Past Anxiety And Stress

The seven percent slower trick is simple and effective. All you need to do is consciously slow down your thoughts, movements, and speech. This can be done by taking a deep breath, counting to three, or simply becoming more aware of your surroundings. When you slow down, your mind is less likely to become overwhelmed, allowing you to focus on the present moment and let go of negative thoughts.

Hurry Up!

In The Slow Professor, Maggie Berg and Barbara K. Seeber discuss how adopting the principles of the Slow movement in academic life can counter the erosion of humanistic education.

Slow Down, Sell Faster!

Tuesdays in the News

Joe Kruskal - 2021-01-15

Crisis is the mother of invention, and baseball has always been no exception. As the sport has grown and evolved, so have the strategies of its managers. In his recent book, "Slow Down, Sell Faster!", Joe Kruskal explores how baseball's managers use data to make decisions and improve their teams.

Joe Kruskal's new book "Slow Down, Sell Faster!" takes a deep dive into the world of baseball analytics and how managers use data to make decisions. Joe Kruskal is a former baseball player and manager who has spent time in the minor leagues and the majors. In this book, he shares the strategies he used to improve his teams and what he's learned from his time in the sport.

Joe Kruskal's book is available now and is available on Amazon. We highly recommend it for any baseball fan or anyone interested in the world of data and analytics.

Slow Down, Sell Faster!

The word "can't slow down the staff" involves an important aspect of American culture thanks to Richard Gilder's running maneater, which made publishing history as the #1 book in the United States for two consecutive years. Now, You Can't Slow Down the Staff tells the story of how a small-town newspaper in the country's worst valley region succeeded in the face of a giant publishing company.

Byrd's newsroom was the first to use data analytics to make decisions. Byrd's newspaper was the first in the United States to be owned by a computer, and it ranked 13th in the country in total revenue. Byrd's newsroom was the first to use data analytics to make decisions. Byrd's newspaper was the first in the United States to be owned by a computer, and it ranked 13th in the country in total revenue.
