The Missing Link in Astrology - Paul Vandemeer - 2013

There is a key to finding the deepest fundamental or unifying point of all our astrology systems, which is precisely what this book and its title ‘The Missing Link in Astrology’ is all about. Step by step I will show you how this missing link is actually based on the fifth harmonic, brought to life by the precession of the equinoxes and, combined with the twelfth harmonic, forming the basis or unifying point of all astrology systems. There is a previously unrecognized but especially strong connection here between Western and Chinese astrology. This oriental art with its twelve animal Year signs happens to incorporate precisely the same twelfth harmonic energy as we use in our own Western—and Eastern—twelve zodiac signs. The main difference is that oriental astrologers of old recognized the vital importance, and hence the usage and inclusion in their oriental science, of the all-important and amazingly creative fifth harmonic, or to put it another way ‘The spark of divinity’.

Updates the author’s classic work on the individuals, fossil discoveries, competing theories, and genetic research involved in the international quest for the human race’s origins.
The Missing Link - Adam Pfeffer - 2007-04
Who is the creature hiding in Central Park in New York City? Hudge Stone, a reporter with the New York Herald, attempts to find out and his search leads him to a government scientific study known as Project Dawning, which began in the jungles of the African Congo years ago. Doctor Luther Steele now heads the study and he holds the answer to what the being hiding in Central Park really is. Is he a primitive tribesman or the missing link himself? With the help of Doctor Dekko Quant, who once headed the project, Stone learns of the strange circumstances deep in the African jungles that produced the creature. His only hope is to write a story that will reveal the secret of the creature. That secret includes the medical discoveries of the last two centuries and beyond. It is a story connected to the findings of the past and the numerous possibilities of the future. A story that combines science with legend, fiction with current scientific fact.

Quarry Closing In On the Missing Link - Noel T. Boaz - 2010-05-11
A leading anthropologist's twenty-year quest in northern and eastern Africa shows how findings from a variety of fields contribute to a holistic picture of human evolution and provide a context for understanding today's problems.

The Untold Story - Edgar Shaw - 2010-04-30
THE UNTOLD STORY is a depiction of a chosen people who civilized the continents of Africa and Asia. These chosen people were Ethiopians. There are five central characters in this book: Enoch, Noah, Moses, Abraham and Jesus Christ. The Untold Story provides a vivid and accurate account of a chosen people who were specifically selected by God to be his people, to live accordingly to his will, but failed to live up to his expectations. This eventually caused a deportation out of their land in Israel and parts of Africa. They are now scattered throughout the world. This book also provides a history of the many nationalities that make up the world as you see it today, the history of religions and who started them, and lastly the

Ethiopia - Philip Briggs - 2009
While the world taps its feet, Ethiopia breakdances with its shoulders. This is an uplifting, inspirational country which confounds expectations. It’s no featureless desert but a land of majestic landscapes surrounding a vast, fertile plateau. The rock-hewn churches in its medieval capital, Lalibela, are regarded by many as the eighth wonder of the world. Its people are welcoming, proud and besotted by their own culture and history. Bradt’s Ethiopia is the most thorough guide available to this country rich in culture, history and dramatic scenery, and has been highly praised by both travel press and readers. ‘Thorough and reassuring, it provides all the practical and background information to make readers leap from their armchairs and visit this vast, magical country’ The Daily Telegraph (UK)

**Race and U.S. Foreign Policy from 1900 Through World War II** - Michael L. Krenn - 2020-12-18
Explores the concept of "race" The term "race," which originally denoted genealogical or class identity, has in the comparatively brief span of 300 years taken on an entirely new meaning. In the wake of the Enlightenment it came to be applied to social groups. This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural, and not socially created, gave birth to the modern notion of "races" as genetically distinct entities. The results of this view were the encoding of "race" and "racial" hierarchies in law, literature, and culture. How "racial" categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method. They also examine the impact of colonialism on the propagation of the concept and note that "racial" categorization is a powerful social force that is often used to promote the interests of dominant social groups. Finally, the collection surveys how laws based on "race" have been enacted around the world to deny power to minority groups. A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of
The Ethiopian landscape features high mountains and the Central Highlands region with some of the best weather in the world. Coffee was first discovered in Ethiopia; its native grain teff is a nutritious meal all by itself. One of the oldest countries on Earth, Ethiopia has made its way into the Koran, and both Testaments of the Bible. While most of Africa was being colonized by Europeans, Ethiopia was the rare exception. Although modern Ethiopia faces many challenges, its history and resources offer hope for a bright future.
Integrated Agro-Industrial Park in Central-Eastern Oromia, Ethiopia

Ethiopia - John Markakis - 2011
An historical overview of Ethiopia's transformation from a multicultural empire into a modern nation state.

Strategic analysis and intervention plan for potatoes and potato products in the Agro-Commodities Procurement Zone of the pilot Integrated Agro-Industrial Park in Central-Eastern Oromia, Ethiopia - Food and Agriculture Organization of the United Nations - 2019-09-02
With the current Second Growth and Transformation Plan (2015-2020), the Government of Ethiopia expects the agro-industrial sector to play key role in economic growth of the Country. Accordingly, the creation of Integrated Agro-Industrial Parks has been identified as one of the key mechanisms for accelerating the development of the sector and the structural transformation of agriculture. Agro-industrial parks will play a significant role in transitioning Ethiopia from an agricultural-led into an industrial-led economy. In view of that, the development of Integrated Agro-Industrial Parks has been prioritized in Ethiopia's national development strategy and four Agro Industrial Growth Corridors have been selected for piloting the establishment of four Integrated Agro-Industrial Parks. The initiative aims at driving the structural transformation of the Ethiopian economy while reducing rural poverty and creating a better environment for increased investments in agro-processing and allied sectors. Since 1981, FAO has been a strong partner of the Government of Ethiopia towards the achievement of national food security and economic growth goals. FAO is working closely with the Ministry of Agriculture and Natural Resources to empower value chain actors and to promote inclusive, efficient and sustainable agricultural value chains. The present document is the fourth one of a series of detailed analyses of prioritized commodities, which will lead to inclusive, sustainable and stronger agricultural value chains in the Agro-Commodities Procurement Zone of the pilot Integrated Agro-Industrial Park in Central-Eastern Oromia.

Understanding Contemporary Ethiopia - Gérard Prunier - 2015-09-15
When we think of Ethiopia we tend to think in cliches: Solomon and the Queen of Sheba, the Falasha Jews, the epic reign of Emperor Haile Selassie, the Communist Revolution, famine and civil war. Among the countries of Africa it has a high profile yet is poorly known. However all cliches contain within them a kernel of truth, and occlude much more. Today's Ethiopia (and its painfully liberated sister state of Eritrea) are largely obscured by these mythical views and a secondary literature that is partial or propagandist. Moreover there have been few attempts to offer readers a comprehensive overview of the country's recent history, politics and culture.
In the pages of this book, Rev. Leonidas A. Johnson eloquently shares how Ethiopia seeks to do just that, presenting a measured, detailed and systematic analysis of the main features of this unique country, now building on the foundations of a magical and tumultuous past as it struggles to emerge in the modern world on its own terms.

The "Testament of Rastafari" is a controversial, yet compelling and timely approach to reading and interpreting the contents of the King James' Version. It is an amazingly plausible and inspirational discourse on the requirements for righteous "liviy," and establishing knowledge of our Creator, HIS NAME & NATURE, HIS great plan for humankind, for renewal of the Earth & Universe, the destruction of DEATH, and the elevation of LIFE! All backed up by the "prophecies of the ancients" and the revealing facts of history. It identifies all the major players in this "silly season of prophecies," the "time of the end..."and the "lost sheep" of the Most High, YAWH RASTAFARI!

Exploring the Invisible - Lynn Gamwell - 2020-03-17
How science changed the way artists understand reality Exploring the Invisible shows how modern art expresses the first secular, scientific worldview in human history. Now fully revised and expanded, this richly illustrated book describes two hundred years of scientific discoveries that inspired French Impressionist painters and Art Nouveau architects, as well as Surrealists in Europe, Latin America, and Japan. Lynn Gamwell describes how the microscope and telescope expanded the artist's vision into realms unseen by the naked eye. In the nineteenth century, a strange and exciting world came into focus, one of microorganisms in a drop of water and spiral nebulas in the night sky. The world is also filled with forces that are truly unobservable, known only indirectly by their effects—radio waves, X-rays, and sound-waves. Gamwell shows how artists developed the pivotal style of modernism—abstract, non-objective art—to symbolize these unseen worlds. Starting in Germany with Romanticism and ending with international contemporary art, she traces the development of the visual arts as an expression of the scientific worldview in which humankind is part of a natural web of dynamic forces without predetermined purpose or meaning. Gamwell reveals how artists give nature meaning by portraying it as mysterious, dangerous, or beautiful. With a foreword by Neil deGrasse Tyson and a wealth of stunning images, this expanded edition of Exploring the Invisible draws on the latest scholarship to provide a global perspective on the scientists and artists who explore life on Earth, human consciousness, and the space-time universe.

Achieving Better Service Delivery Through Decentralization in
Achieving Better Service Delivery Through Decentralization in Ethiopia examines the role decentralization has played in the improvement of human development indicators in Ethiopia. Ethiopia has made major strides in improving its human development indicators in the past 15 years, achieving significant increases in the coverage of basic education and health services in a short period of time. Improvements took place during a period of massive decentralization of fiscal resources, to the regions in 1994 and to woredas in 2002-03. The devolution of power and resources from the federal and regional governments to woredas appears to have improved the delivery of basic services. Surveys of beneficiaries reveal that they perceive service coverage and quality have improved. Beneficiary satisfaction has increased markedly in education, and less conspicuously in water and health services. In the south, the decentralization to woredas in 2002-03 tended to narrow differences in per capita expenditures on education and health across woredas. Decentralization disproportionately favored woredas that are remote (more than 50 kilometers from a zonal capital), food-insecure, and pastoral, suggesting that decentralization has been pro-poor. Decentralization also narrowed the gap in educational outcomes between disadvantage and better-off woredas, especially in the south. Pastoral, food-insecure, and remote woredas gained in terms of the educational outcomes examined (gross enrollment rates, grade 8 examination pass rates, repetition rates, pupil-teacher ratios, and teacher-section ratios).

Features contributions from renowned scholars of history and religion from around the world Addresses the origins and global expansion of Christianity over the course of two millennia Covers a wide range of themes relating to Christianity, including women, worship, sacraments, music, visual arts, architecture, and many more Explores the development of Christian traditions over the past two centuries across several continents and the rise in secularization
And yet it was at best an impotent cry. For there has never lived a people worth writing about who have not shaped out a destiny for themselves, or carved out their own opportunity.” With this political statement, Hayford begins his novel of African emancipation. Semi-autobiographical, it is the story of Kwamankra, a man who, like the author, traveled from Africa to London to become a lawyer. Through dialogue with his English friend Whitely, knowledge of historical and contemporary events in Africa, and his relationship with the lovely Mansa, Kwamankra comes to believe in full independence for his homeland and his people. With a beautifully designed cover and professionally typeset manuscript, this edition of J. E. Casely Hayford’s Ethiopia Unbound: Studies in Race Emancipation is a classic of Ghanaian literature reimagined for modern readers.

Public Administration in Ethiopia - Bacha Kebede Debela - 2020-12-01
Building an effective, inclusive, and accountable public administration has become a major point of attention for policymakers and academics in Ethiopia who want to realise sustainable development. This first handbook on Ethiopian Public Administration is written by Ethiopian academics and practitioner-academics and builds on PhD studies and conference papers, including studies presented at the meetings of the Ethiopian Public Administration Association (EPAA), established in 2016. Public Administration in Ethiopia presents a wide range of timely issues in four thematic parts: Governance, Human Resources, Performance and Quality, and Governance of Policies. Each of the individual chapters in this volume contributes in a different way to the overarching research questions: How can we describe and explain the contexts, the processes and the results of the post-1990 politico-administrative reforms in Ethiopia? And what are the implications for sustainable development? This book is essential for students, practitioners, and theorists interested in public administration, public policy, and sustainable development. Moreover, the volume is a valuable stepping stone for PA teaching and PA research in Ethiopia.

This study assesses progress in the implementation of the nutrition-sensitive interventions of the fourth phase of Ethiopia’s Productive Safety Net Programme (PSNP-4) and its impact on: (1) the pathways underpinning children’s nutritional status; and (2) the roles it plays in reducing the malign effect of seasonality on the nutritional status of women and pre-school children. The analysis is based on four rounds of household survey data, conducted in March and August 2017 (baseline) and March and August 2019 (endline). These surveys focused on households with a child less than 24 months of age (index child) and his/her mother (index mother). In 2017 and 2019, the survey teams visited more than 2,500 households in 264 kebeles in 88 PSNP woredas in the Amhara, Oromia, SNNP, and Tigray regions.

For decades the Falashas - the Black Jews of Ethiopia - have fascinated scholars. Are they really Jews and in what sense? How can their origins be explained? Since the Falashas' transfer to Israel in the much publicised Israeli air lifts the fascination has continued and new factors are now being discussed. Written by the leading scholars in the field the essays in this collection examine the history, music, art, anthropology and current situations of the Ethiopian Jews. Issues examined include their integration into Middle Eastern society, contacts between the Falasha and the State of Israel how the Falasha became Jews in the first place.

Having just emerged from a prolonged civil war and faced with the urgent tasks of establishing political stability and reinvigorating an economy in tatters, the Transitional Government of Ethiopia (1991-1995) had to set a new direction for the economic reconstruction and social rehabilitation of the war-ravaged and poverty-ridden country. During the Transitional Period a spate of new policies and strategies defining the development priorities, goals and implementation instruments of the new regime led by the EPRDF was introduced. This work is a synthesis of various sectoral policies and an attempt to trace the genesis of the policies, highlight the continuities, significant departures and other salient features. Each of the reviews in this digest briefly analyses the critical elements of the policies, identifies major gaps in the conceptualisation of the policy as well as the achievements registered and the challenges encountered in its implementation. The authors also try to identify the outstanding issues to be addressed by policymakers and suggest remedies. The policy reviews have been grouped into three parts and presented under social, economic and governance sectors.

**Digest of Ethiopia's National Policies, Strategies and Programs** - Taye Assefa - 2008

The history of Judaising movements has been largely ignored by historians of religion. This volume analyzes the interplay between colonialism, a Judaism not traditionally viewed as proselytising but which at certain points was struggling to heed the Prophets and become a light unto the Gentiles' and the attraction for many different peoples of the rooted historicity of Judaism and by the symbolic appropriation of Jewish suffering. This book will look at the role of colonialism in the development of Judaising movements throughout the world, including New Zealand, Japan, India, Burma and Africa. Particular attention will be paid to the Lema tribe of Southern Africa. A remarkable parallel movement in 1930s Southern Italy will also be dealt with. The history of the converts of San Nicandro is seen in the context of currents of Jewish universalism, messianism and Zionism. Gender issues are also discussed here as the converted women assumed powers they had not hitherto enjoyed.
