

## **Victoria Phillips**

Victoria has been serving as Director of Massachusetts DEP's Enterprise Information Office since 2012. She is responsible for developing and managing a \$45M+ enterprise information transformation initiative for the DEP. She serves as co-project manager and business lead for this project that will transform 100+ applications from seven energy and environmental agencies into a sustainable and scalable integrated technology model.

Phillips previously served as the Strategic Planning Officer for Information Technology for the Commonwealth of Massachusetts and the Secretariat Information Officer for the Executive Office of Environmental Affairs. From 2010 through 2011 she was a Harvard University Teaching Assistant for Leadership for a Networked World.
