Large River Semi-wadeable Multimetric Index (SWMMI)

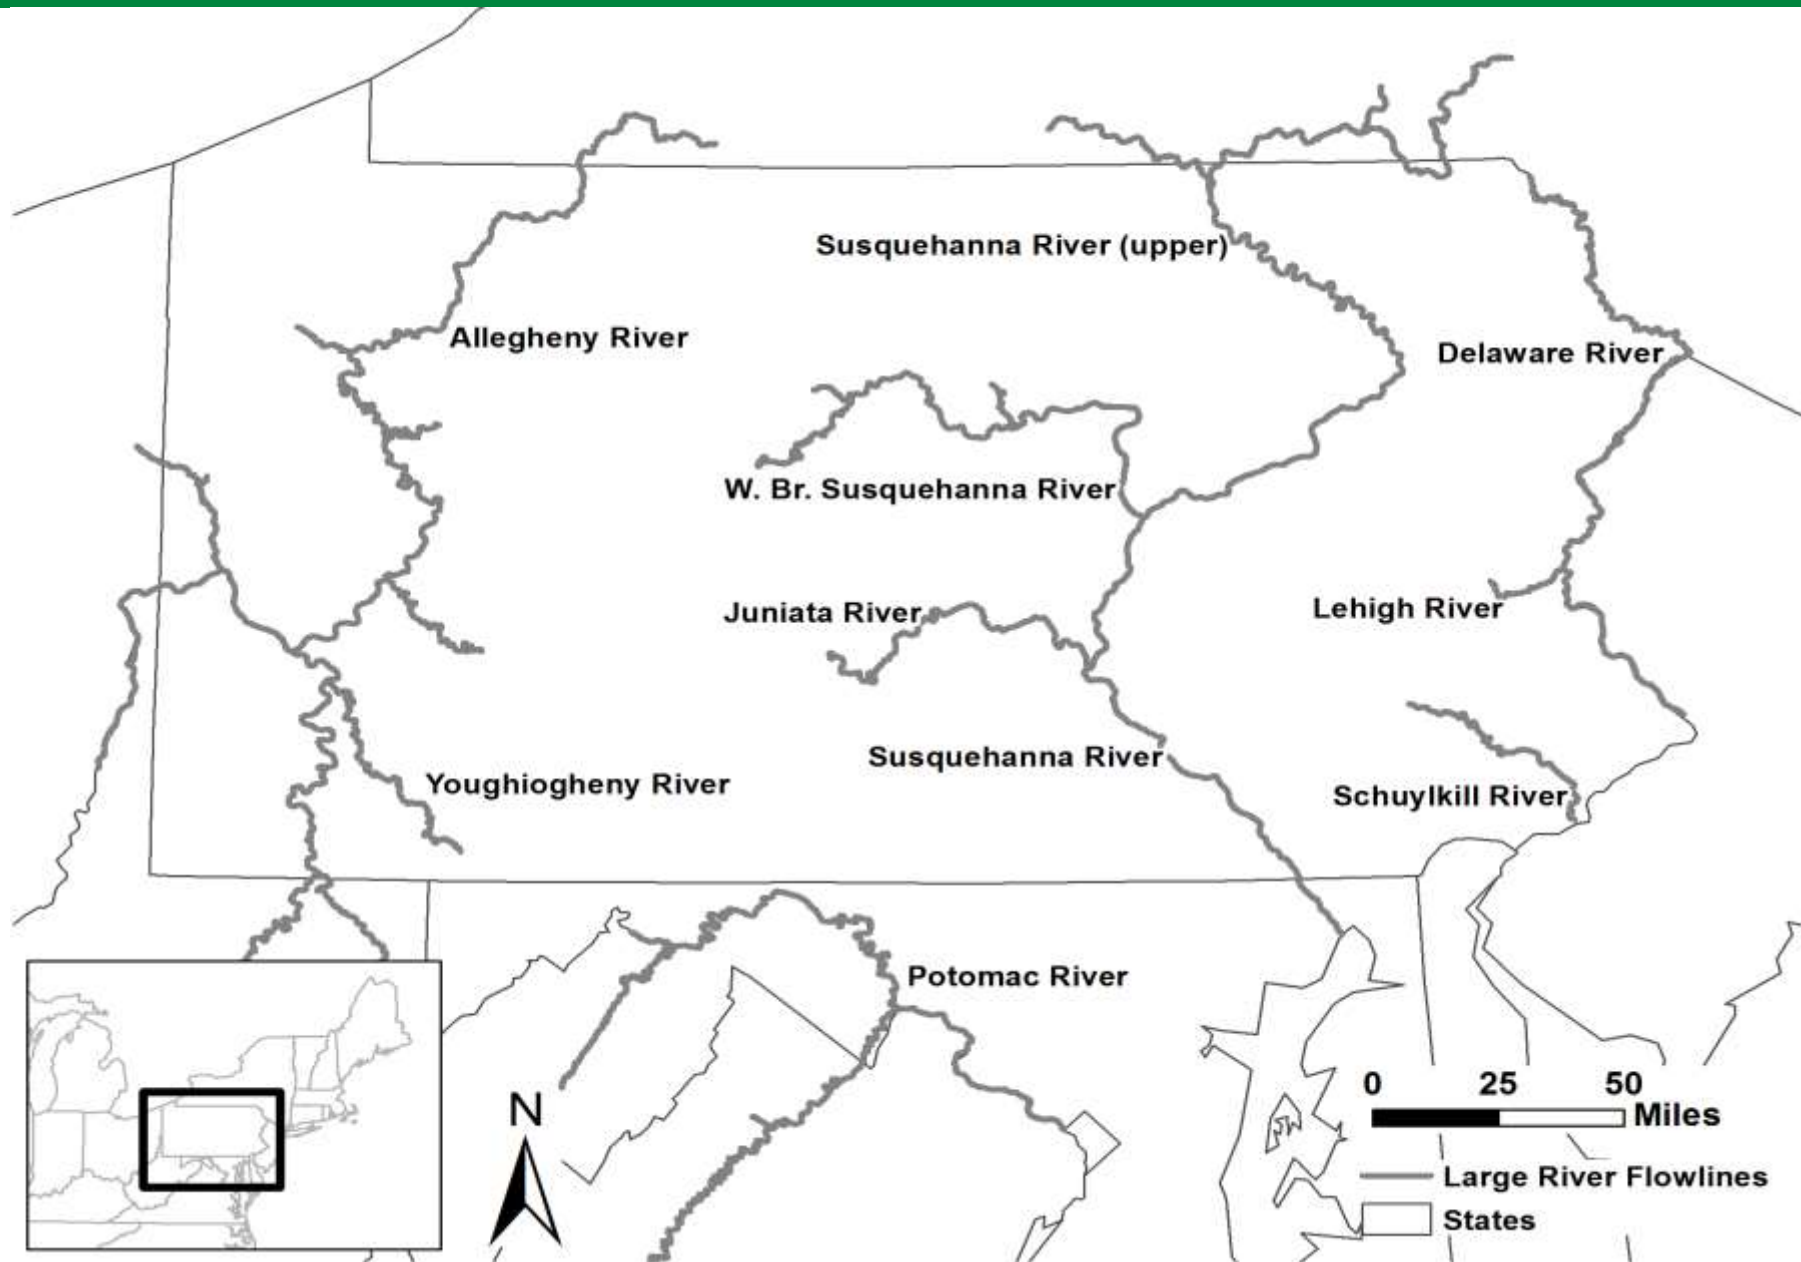

Dustin Shull

2020 National

CWA 303(d) Training Workshop

May 28th, 2020

Large Rivers

Complex Systems

Large Rivers

Semi-wadeable Rivers

Example: Susquehanna River at Sunbury, PA where major influences do not mix for up to 65 miles

Non-wadeable Rivers

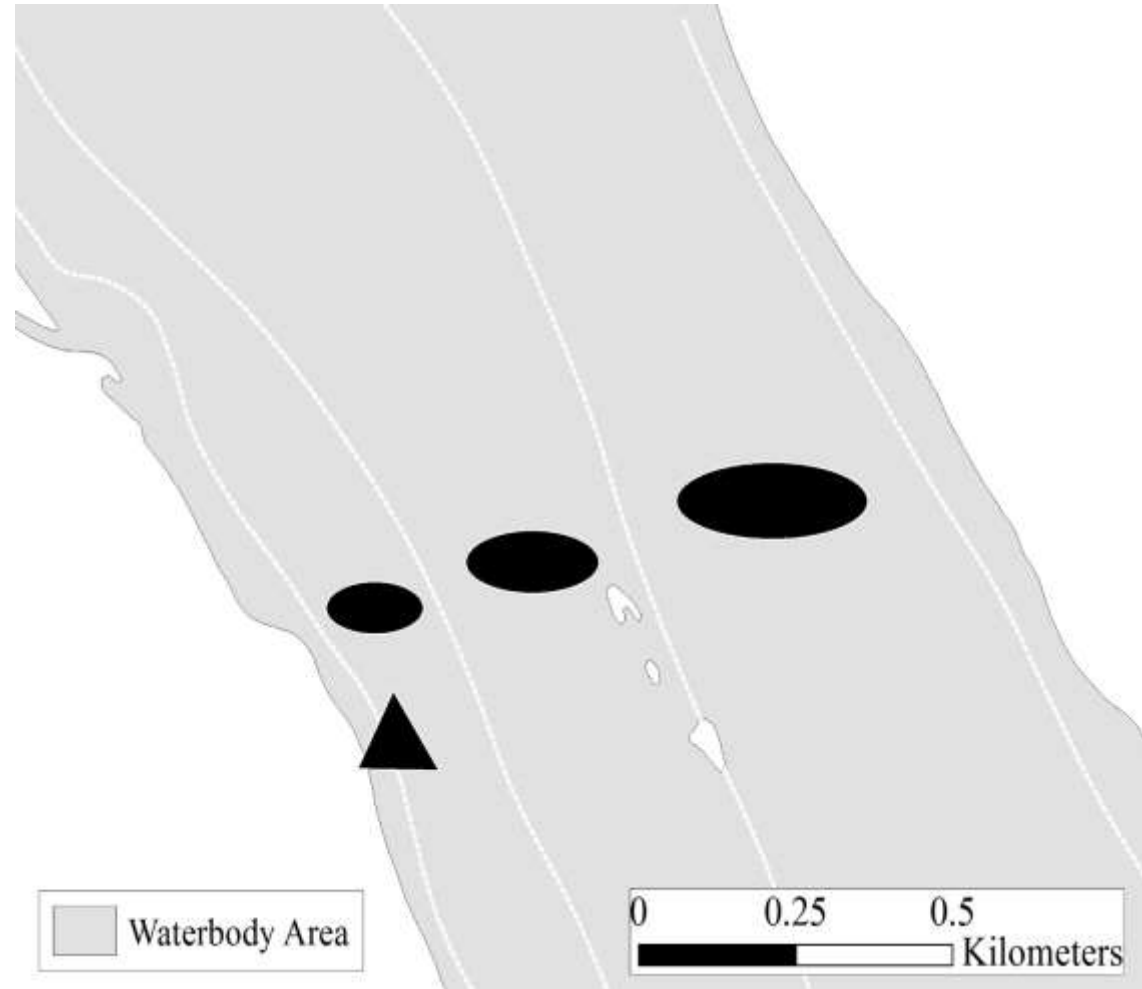

Example: Ohio River at Pittsburg, PA where major influences “mix” in about 1 mile

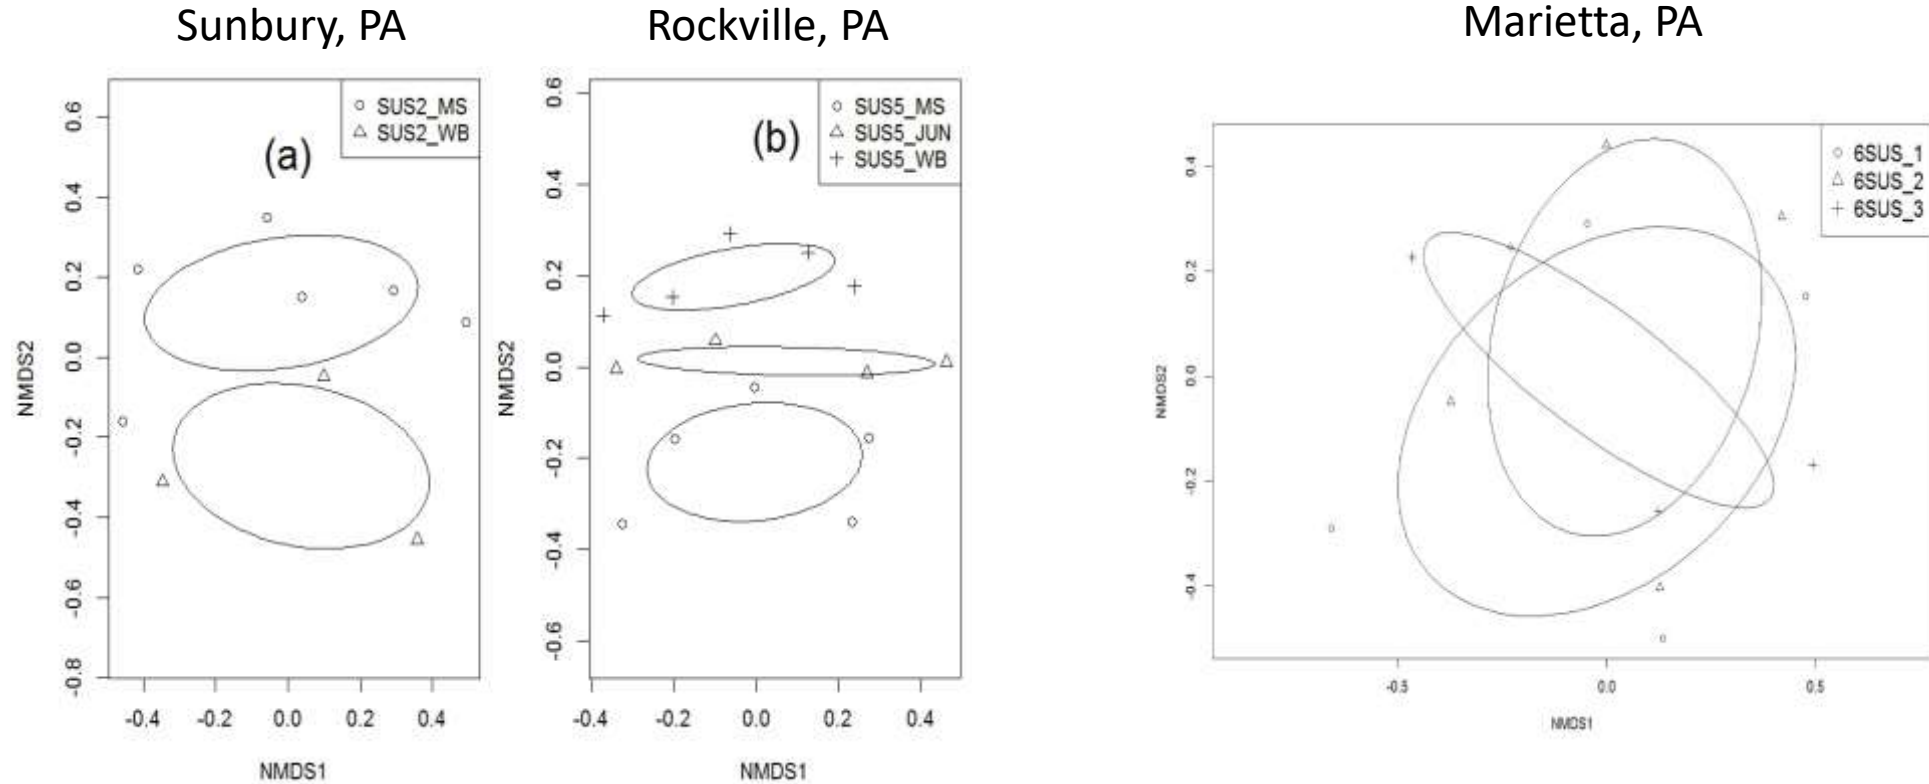

Macroinvertebrate Collection Method

– Two approaches

- Wadeable method: ▲
 - Standard method for PADEP/WQN
 - Problematic in large rivers
- Transect Method: ●
 - Multiple samples taken based on water quality
 - Addresses major water influence differences

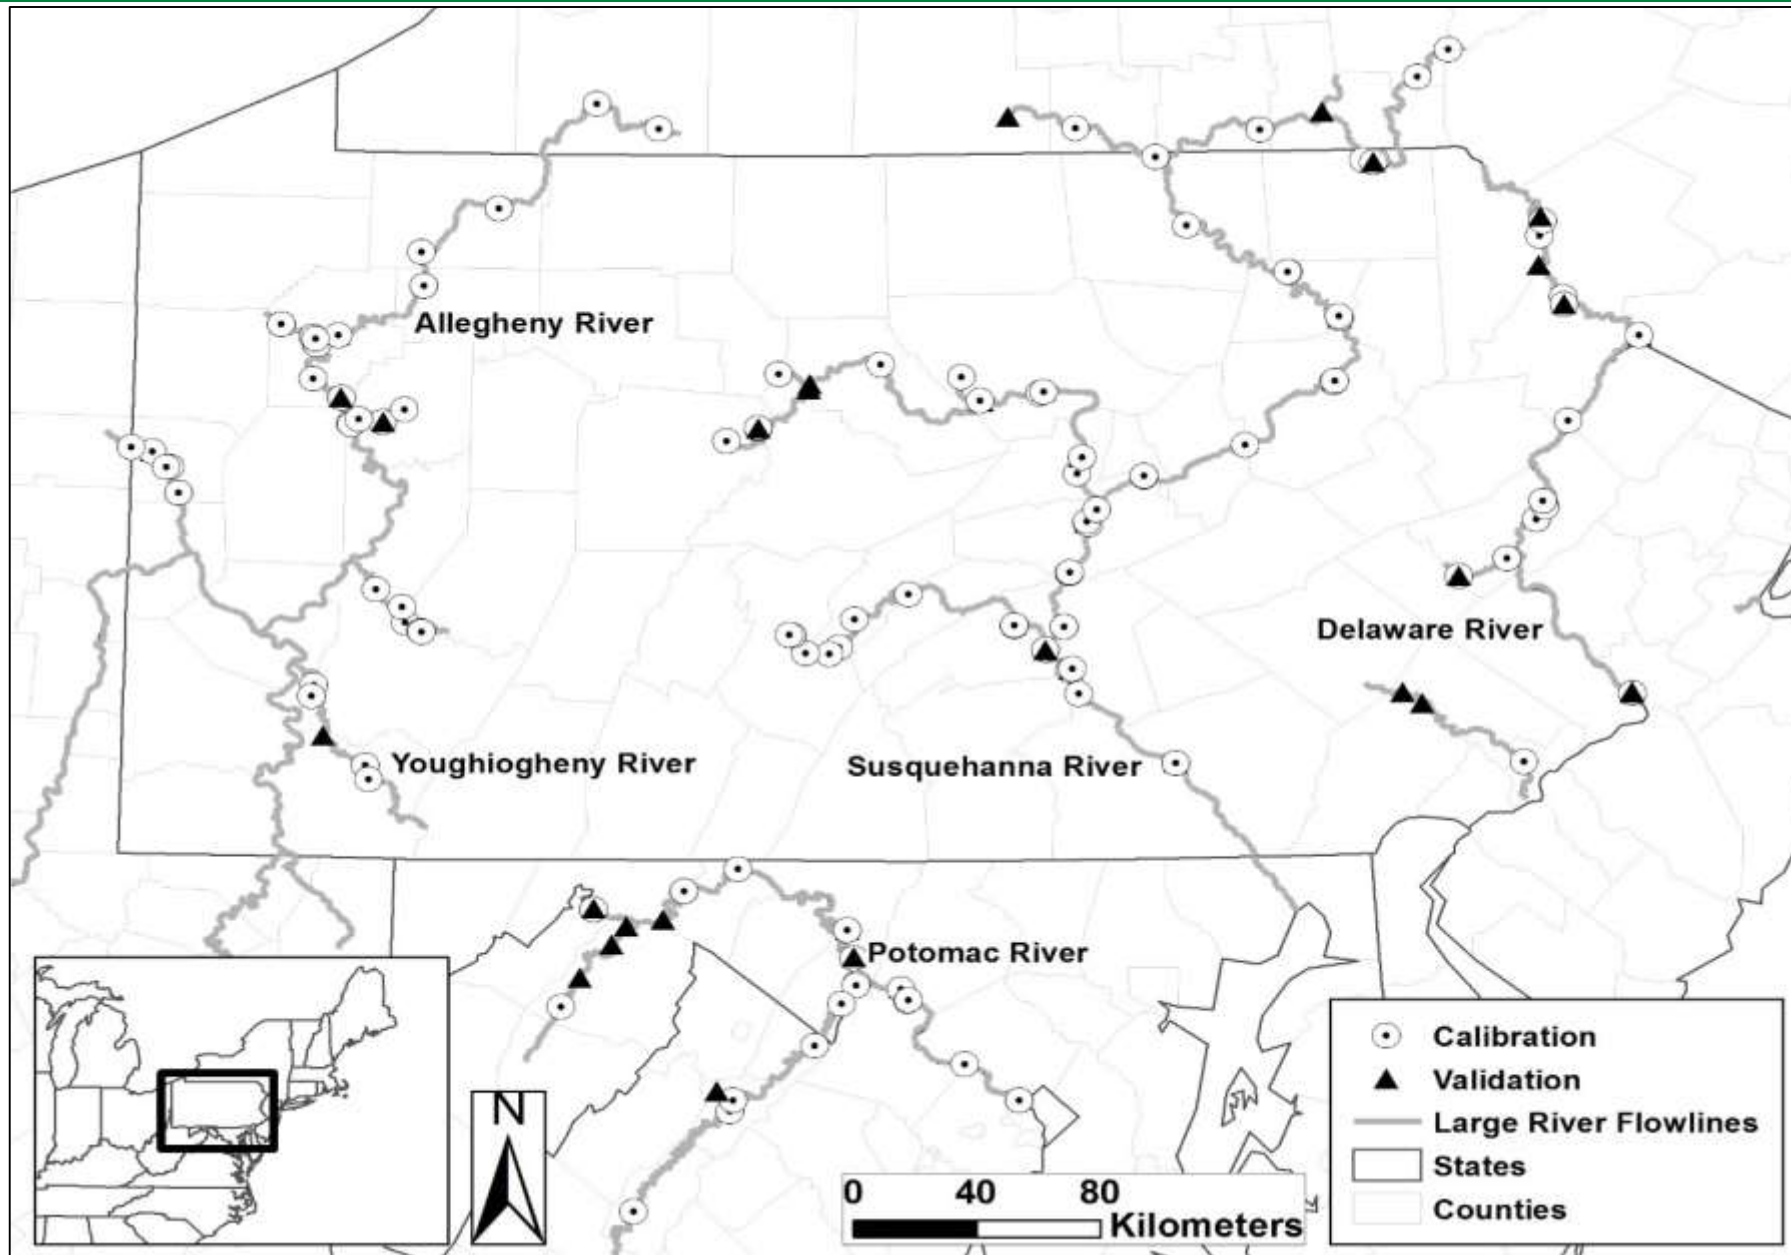

Method Test

Shull, D. R., & Lookenbill, M. J. (2017). Assessing the expansion of wadeable benthic macroinvertebrate collection methods in large semiwadeable rivers. *Freshwater Science* 36(3):683–691.

MMI Development

Natural Classification

- Season was the strongest driver of natural variation
- Moved forward with:
 - 2 classifications based on seasonality
 - 2 semi-wadeable MMIs, one for summer, one for fall.

– Calibration Dataset

- 275 samples from 126 sites
 - Summer 155 samples from 114 sites
 - Fall 120 samples from 93 sites

– Validation Dataset

- 106 samples from 42 sites
 - Summer 63 samples from 42 sites
 - Fall 43 samples from 32 sites

– 167 metrics analyzed

MMI Development

Summer Metrics

Metric Code	Metric Name	Metric Type	RTD	Min	Median	Max	Range	DE	MR	SOI	SGC (PC 1)	<u>Selected</u>
BCGpct456	Percent Tolerant/Invasive Individuals (BCG 4-6)	Tolerance	POS	37.7	61.4	81.5	43.9	92.1	0.78	1.3	0.55	
BCGpct5	Percent Tolerant Individuals (BCG 5)	Tolerance	POS	21.1	41.7	65.0	43.9	92.1	0.81	1.1	0.54	<u>X</u>
PTVpct03	Percent Sensitive Individuals (PTV 0-3)	Tolerance	NEG	12.2	33.2	59.4	47.2	92.1	0.80	0.4	-0.62	<u>X</u>
BCGindex2	Hilsenhoff Index (BCG attributes)	Tolerance	POS	3.7	4.1	4.6	1.0	89.5	0.81	0.7	0.60	<u>X</u>
pctEbcg13	Percent Ephemeroptera (BCG 1-3)	Composition	NEG	5.6	24.0	51.0	45.5	86.8	0.73	0.5	-0.41	<u>X</u>
pctDOM	Percent Dominant Taxon	Dominance	POS	12.7	19.2	34.2	21.5	84.2	0.37	0.7	0.41	<u>X</u>
PTVbeck3	Beck Index (PTV 0-3)	Tolerance	NEG	3	10	18	15	81.6	0.47	0.7	-0.59

Summer SWMMI

Calibration Dataset: DE = 97%

Validation Dataset: CE = 84%

Fall SWMMI

Calibration Dataset: DE = 88%

Validation Dataset: CE = 87%
