

**Kathryn (Kay) Lawrence** is the manager of U.S. EPA Region 9's Emergency Prevention and Preparedness programs covering California, Arizona, Nevada, Hawaii and the Pacific Trust Territories. The Region 9 Clean Air Act Risk Management program and the Emergency Planning and Community Right to Know Act (EPCRA) Emergency Planning Regulations are within her program operations. Kay also manages the Emergency Preparedness Team for the EPA San Francisco office. EPA shares responsibilities with the U.S. Coast Guard and FEMA in federal response planning and in partnering with federal, state and local response planners for hazmat, oil, disaster and other emergency response related readiness efforts.

Prior to her current position, Kay was an On Scene Coordinator in EPA's Emergency Response Program where she oversaw and directed federal efforts in response to hazardous materials incidents, oil spills and pollution impacts related to natural disasters.

Kay has a Bachelor of Science in Chemical Engineering.
