

Jeramie Scott

Jeramie Scott is the National Security Counsel and Privacy Coalition Coordinator for EPIC. His work focuses on the privacy issues implicated by domestic surveillance programs that use drones, biometrics, big data, and license plate readers. He also runs the monthly Privacy Coalition meeting that brings together representatives of consumer and privacy organizations with key Washington decision makers in the privacy field. Prior to joining EPIC, Mr. Scott graduated from the New York University Law School where he was a clinic intern at the Brennan Center's Liberty and National Security Program. His work at the Brennan Center focused on civil liberty issues arising from local law enforcement surveillance. While at NYU, Mr. Scott was a member of the NYU's Privacy Research Group—a weekly discussion of topical privacy issues and research run by Professor Helen Nissenbaum. He also served as a research assistant for Professor Ira Rubinstein, focusing on the role of privacy-enhancing technologies in alleviating consumer privacy issues. Mr. Scott holds a Bachelor of Science in Symbolic Systems and a Master's degree in Philosophy, both from Stanford University.
